Subject: Information Concerning IXYS Semiconductor Migration to Littelfuse SAP – Labels, Invoicing and Packing List

Valued Partner,

With the integration of IXYS Semiconductor and Integrated Circuits Division (ICD) products into Littelfuse, we are moving packaging labels to Littelfuse standard label formats. Implementation of this change will begin the week of February 22, 2021. This is a rolling implementation among our plants until the end of April, or until all current stock is depleted. You can expect to receive products with both Littelfuse and IXYS branding during the implementation phase.

You may currently see one of the below labels on your trays or cartons:
