Subject: PCN#01A-20 Notification of Removal of Device Backside Mark on all Lattice QFP Products

Dear Lattice Customer,

Lattice is providing this notification of our intent to remove the backside marking for Lattice Quad Flat Pack (QFP) products. The backside marking removal will be a gradual transition until existing inventories have been exhausted. The manufacturing process will be changed on or after December 28, 2020 and the realization of the removal by the customer will be a gradual transition over time, depending on the individual products' inventory levels.

Backside marking consists of the Date Code (YYWW) and Assembly Lot number. These are both being marked in package assembly. Currently, backside marking is utilized only for internal traceability. The device and assembly lot will maintain traceability with the Inspection Lot (topside lot number). The change is aimed to standardize with current industry practices.

- **CURRENT SAMPLE MARKING**

Backside marking removal changes in this PCN apply to all affected Lattice QFP devices.

Effects to Customer Design

There will be no change in form, fit and function of the affected products. There will be no impact on customer designs.

Affected Products

Marking changes in this PCN apply to all affected Lattice QFP devices. The Ordering Part Numbers (OPNs) affected by this PCN are listed in an Excel spreadsheet [here](#). This PCN also affects any custom devices (i.e. factory programmed, special test, tape and reel, non-standard speed grade and package, etc.), which are derived from any of the devices listed in the table.

TIMING

This change is effective 90 days after the date of this notice. As stated earlier, specific conversions will be a function of existing inventories.
